This is a request that the City Council approve a resolution  
creating the Records Disposition Schedule for the Neighborhood  
Code Compliance Department (N.C.C.). This Records Disposition  
Schedule was developed by the Records Management Section of the  
City Clerk's office and the staff of N.C.C. The development of  
this Schedule will (1) ensure that N.C.C.'s important records are  
retained in accordance with the City's legal, administrative,  
fiscal, and historical needs, and (2) provide authority for the  
transfer of inactive records to storage and/or destruction, thus  
freeing up valuable office space. Other benefits to be realized  
by the creation of this Schedule include a reduction in the  
quantity of duplicate records which are maintained by the N.C.C.  
Department; descriptions which give the department an historical  
and comprehensive view of the records it generates; and aid in  
the improvement of filing systems, allowing greater control over  
the current record keeping system. Records Management staff is  
continuing work on the development of departmental Schedules as a  
key to providing a systematic control of paperwork and records

creation, maintenance, usage and disposition. The approval of this Records Disposition Schedule will be the thirty-fourth completed to date.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1251) ADOPTED AS RESOLUTION R-285515

CITY MANAGER SUPPORTING INFORMATION:

A grant application for Environmental Enhancement and Mitigation Program (EEMP) funds has been prepared for submission to the Resources Agency of California, which administers Roadside Recreational funding. Legislation allocates \$10 million annually for a period of 10 years for grants to local, state and federal agencies, and nonprofit entities for projects to enhance and mitigate the environmental impacts of modified or new public transportation facilities. This project must compete for funding with other projects on a state wide basis. The resolution authorizes the City Manager to submit a grant application and accept funds for the Fairmount Avenue Bikeway Mitigation Project.

CONSENT MOTION BY STALLINGS TO ADOPT. Second by Mathis.

\* ITEM-102:

SUBJECT: Additional Funding for Balboa Park Golf Course Greens  
Reconstruction.  
(Balboa Park Community Area. District-8.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1334) ADOPTED AS RESOLUTION R-285516

Authorizing the City Auditor and Comptroller to  
transfer an amount not to exceed \$121,704 from Golf  
Course Enterprise Fund No. 41400, to CIP-23-014.0,  
Balboa Park Golf Course - Greens Reconstruction;  
Authorizing the expenditure of an amount not to exceed  
\$121,704 from CIP-23-014.0, Balboa Park Golf Course -  
Greens Reconstruction, to supplement funding previously  
authorized by Council in Resolutions R-280497 and  
R-283670.

CITY MANAGER SUPPORTING INFORMATION:

The Balboa Park Golf Course Greens Reconstruction project is  
located east of Pershing Drive between 26th Street and 28th  
Street. The improvements include the reconstruction of twelve  
holes on the 18-hole course, replacement of all nine greens on  
the 9-hole course, realignment and repair to sections of the  
existing cart paths, and upgrading the existing irrigation  
system. Construction is 92 percent complete. The contract  
specifications call for the construction of the greens and tees  
using Pennlinks Bentgrass hydroseed. This grass does not  
germinate in cold weather. In order to ensure turf establishment  
and completion of the project on schedule, a change order is  
proposed to have the greens and tees constructed using sod in  
lieu of seed. Previous change orders have depleted the project  
contingency reserve and an additional \$55,000 is needed to cover  
the proposed change order. Additionally, the contractor's  
difficulty in providing the specified root zone soil mix for the

greens, and the project's long duration of 25 months has caused engineering and administration costs to exceed the allocated funds. As a revenue producing facility, it is our goal to reopen the golf course as soon as possible. An additional \$66,704 is needed to complete the project by April, 1995.

CIP-39-209.0	El Cajon Blvd. - I-805 - 54th St. Revitalization	\$390,193

The University Heights project was originally budgeted for \$300,000, however, only \$210,000 is needed for that project. A transfer of \$90,000 from the University Heights Project to the El Cajon Blvd. project is requested in order to initiate the I-805 to 37th Street phase. The remaining \$300,193 is budgeted for the El Cajon Blvd. - 37th to 39th Street phase. All of these projects are taking place in blighted commercial areas where the streetscape improvements are expected to create more pedestrian-friendly shopping districts and increased commercial activity. Improvements will include street trees and shrubs, automatic irrigation systems, paving enhancements, and sidewalk repairs. The Council actions authorize the processing necessary to execute the TransNet bonding.

(Centre City Community Area. District-2.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1290) ADOPTED AS RESOLUTION R-285525

Authorizing a first amendment to the agreement with David Reed Landscape Architects (San Diego), for sidewalk improvements for the Broadway Tile Replacements Project;  
Authorizing the Auditor and Comptroller to transfer not to exceed \$15,000 from CIP-52-327.0, Safety All Weather Walks, Fund No. 30300 to CIP-52-325.0, Broadway Tile Replacements;  
Authorizing an increase to the FY 1995 budget by \$64,730, Private and Others Contribution Fund No. 63022, from CCDC per Resolution No. R-2436, for CIP-52-325.0, Broadway Tile Replacements Project;  
Authorizing an increase to the FY 1995 budget by \$6,071, Private and Others Contribution Fund 63022 from United Enterprises, Ltd., for placement of a concrete cap over deteriorated basement at 5th and Broadway;  
Authorizing the expenditure of not to exceed \$85,801 (\$15,000 from TransNet, \$64,730 from CCDC and \$6,071 from United Enterprise, Ltd.) from CIP-52-325.0.

CITY MANAGER SUPPORTING INFORMATION:

The Broadway Tile Replacements Project was initiated to correct the failed tile pavers on Broadway between Fourth and Ninth Avenues on the north side and between Seventh and Ninth Avenues on the south side. However, due to unavailability of funds at the time of construction the one block between Seventh and Eighth Avenues on the north side and the south side was deducted from the scope of the project. On November 1, 1994, the Redevelopment Agency determined that the sidewalk improvements on Broadway between Seventh and Eighth Avenues are a benefit to the core district of the Centre City Redevelopment Project area. Therefore, the Redevelopment Agency approved funding in the amount of \$64,730 for the subject sidewalk improvements per Resolution No. R-2436. With this amendment we are requesting the authorization for acceptance and expenditure of the \$64,730. In December, 1990, the City Council authorized an agreement with the

firm of David Reed Landscape Architects to provide professional services for the sidewalk improvements. This first amendment will provide for an increase of \$7,660 in the consultant's compensation to cover additional services required. These services include site observations and reports, interfacing with private property owners, and other agencies.

Subitem-A: (R-95-1291) ADOPTED AS RESOLUTION R-285528

Authorizing an agreement with MBC Applied Environmental Sciences, for professional services in connection with the Mission Bay Shoreline Protection project as previously approved by Council and as required by the U.S. Army Corps of Engineers and the California Coastal Commission;  
Authorizing the expenditure of not to exceed \$625,000 from Transient Occupancy Tax Fund 102242, CIP-21-834.0, Balboa Park/Mission Bay Requirements, Sublet Project No. 21-841.7, Mission Bay Park Eelgrass Mitigation.

Stating for the record that the City of San Diego as Lead Agency has reviewed and considered Environmental Impact Report and Mitigation Monitoring and Reporting Program, DEP-89-0225.

**CITY MANAGER SUPPORTING INFORMATION:**

On October 17, 1994, City Council approved, per Resolution R-284773, the Mission Bay Park Shoreline Stabilization and Restoration, Phase I, Construction Contract. This shoreline restoration project will provide hardscape protection improvements of rock revetment and concrete bulkhead walls to a number of shoreline sites within Mission Bay Park. The shoreline restoration project will also provide for dredging of two sites within Mission Bay that are considered to be navigational hazards. Special conditions of the permits issued by the U.S. Army Corps of Engineers and the California Coastal Commission, for the purpose of implementing the shoreline restoration project, require the mitigation of all eelgrass impacts associated with the dredge sites and other locations. This action will authorize the City Manager to execute an agreement with MBC Applied Environmental Sciences for services to mitigate eelgrass impacts and other requirements of the environmental resource agencies.

SUBJECT: Commercial, Industrial and Institutional Water  
Conservation Program.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1306) ADOPTED AS RESOLUTION R-285530

Authorizing the City Manager to implement the  
Commercial, Industrial and Institutional Water  
Conservation Program;  
Authorizing an agreement with the San Diego County  
Water Authority to implement and administer the  
Commercial, Industrial and Institutional Water  
Conservation Program;  
Authorizing the expenditure of an amount not to exceed  
\$250,000 from the Water Utilities Department Operating  
Fund (41500), Water Conservation Program (70622).

CITY MANAGER SUPPORTING INFORMATION:

This action requests funding for the implementation of the  
Commercial, Industrial, and Institutional Water Conservation  
Program for the current fiscal year by entering into an agreement  
with the San Diego County Water Authority (CWA) to provide  
matching funds from the CWA and the Metropolitan Water District  
of Southern California (MWD). The program's funding percentages  
will be at 25 percent each for the City and the CWA, and 50  
percent for the MWD. Upon exhausting all available CWA funds,  
the City and the MWD will split the program costs on a 50-50  
basis. On September 23, 1991, the City Council adopted a  
resolution to become an original signatory to the Memorandum of  
Understanding (MOU) Regarding Urban Water Conservation in  
California. The MOU contains sixteen Best Management Practices  
(BMP's) that are proven long-term water conservation measures  
which have become statewide standards. The Commercial,  
Industrial, and Institutional Water Conservation Program is a BMP

that will assist the City's commercial, industrial, and institutional water customers in identifying water conserving measures by surveying their facilities. These customers account for 30 percent of the total water used in the City. The on-site survey will be performed by either City staff or a representative from Black & Veatch, MWD's technical consultant for the program. It is estimated that by participating in the program and implementing the measures identified by the survey, the average commercial, industrial, or institutional facility can reduce its water consumption by 15 to 20 percent without affecting their operating methods or end products. Because of the varying nature of water use from one commercial, industrial, or institutional facility to another, it is difficult to estimate the total program water savings.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1348) ADOPTED AS RESOLUTION R-285531

Authorizing an agreement with the County of San Diego  
for removal of encroachments for the San Diego County  
Hall of Justice.

CITY MANAGER SUPPORTING INFORMATION:

An agreement for removal of encroachments at the San Diego County  
Hall of Justice is being entered into between the City of San

Diego (City) and the County of San Diego (County). The County desires to build a pedestrian bridge over the public right-of-way, crossing Union Street from the Hall of Justice and connecting to the third level of the Downtown Courthouse. If authorized by City Council, this bridge will be constructed by the County in accordance with the County building plans. San Diego Municipal Code, Chapter VI, Article 2, Division 3, Section 62.0303 requires City Council authorization for structures built over the public right-of-way. It is recommended that the agreement for removal of encroachments be approved.

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1253) ADOPTED AS RESOLUTION R-285532

Authorizing a first amendment to the agreement with San Ysidro Health Center for design and construction of a roof replacement and floor retrofit for their facility located at 4004 Beyer Blvd., San Ysidro;  
Authorizing the expenditure of not to exceed \$100,000 from CDBG Fund 18530, Dept. 4062, Org. 6219.

CITY MANAGER SUPPORTING INFORMATION:

San Ysidro Health Center is a non-profit organization located at 4004 Beyer Boulevard. The Center serves approximately 30,000 patients annually, the majority being publicly insured Medi-Cal beneficiaries or uninsured low income clients. With the demand for services increasing at a rapid rate, it is vital that the Center be renovated to operate more efficiently, and to extend the useful life of the existing facility. As part of the master renovation plan, this amendment will provide necessary funding

for the design and construction of a roof replacement, and a floor retrofit under the medical records storage area. On May 9, 1994 City Council adopted Resolution No. R-283845 granting the additional CDBG funding for this project.

SUBJECT: Two actions related to Approving Change Order No. 7 for the Construction of the Rose Canyon Trunk Sewer.  
(University and Clairemont Mesa Community Areas.  
Districts-1 & 6.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolutions:

Subitem-A: (R-95-1330) ADOPTED AS RESOLUTION R-285533

Approving Change Order No. 7, with PCL Civil Constructors, Inc., increasing the contract price by \$208,365;  
Authorizing the expenditure of not to exceed \$208,365 from Sewer Revenue Fund 41506, Contingency Account 4905, CIP-46-110.0, Rose Canyon Trunk Sewer.

Subitem-B: (R-95-1331) ADOPTED AS RESOLUTION R-285534

Stating for the record that the information contained in the final Environmental Impact Report and Mitigation, Monitoring and Reporting Program DEP-89-0876, including any comments received during the public review process, has been reviewed and considered by Council for the City as Lead Agency in connection with the construction of the Rose Canyon Trunk Sewer.

CITY MANAGER SUPPORTING INFORMATION:

On January 10, 1994, by Resolution Nos. R-283247 and R-283248, the City Council approved the plans and specifications, and

authorized the execution of a contract for the construction of the Rose Canyon Trunk Sewer. The construction contract was awarded to PCL Civil Constructors, Inc., on March 10, 1994. The Contract Documents require the contractor to coordinate with SDG&E for the bracing of their existing poles (total 8) during construction of the planned 60-inch trunk sewer, from Station 102+75 to Station 113+00. Prior to construction, it was determined by SDG&E that bracing the poles during construction was not sufficient enough to stabilize them. This is due to the 60-inch trunk sewer's required sloped trench. Due to the proximity of the poles to the trench, the poles foundation would be undermined. Thus, pole bracing was an impractical solution. Secondly, the clearance between SDG&E overhead electric lines and the ground surface was not adequate for construction equipment to safely install the 60-inch diameter sewer pipe. Therefore, the electric poles adjacent to the City's 60-inch sewer trench required relocation to approximately 15 feet westerly. The poles are located in SDG&E's easement; therefore, the City has to pay SDG&E for the relocation costs. This Change Order is reimbursement of direct payment to SDG&E by PCL. No contractor mark-up or profit has been allowed.

ITEM-200:

SUBJECT: Declaring a Continued State of Emergency regarding the Discharge of Raw Sewage from Tijuana, Mexico.  
(San Ysidro and Tijuana River Valley Community Areas.  
District-8.)

MAYOR GOLDING'S RECOMMENDATION:

Adopt the following resolution:

(R-95-1333) ADOPTED AS RESOLUTION R-285546

Declaring a continued State of Emergency regarding the discharge of raw sewage from Tijuana, Mexico.

CITY MANAGER SUPPORTING INFORMATION:

For over 50 years, renegade raw sewage flows from Tijuana, Mexico have flowed across the international border in the Tijuana River into the United States. These flows have impacted the health and safety of San Diego residents. The permanent solution to this border situation is the construction of the proposed International Treatment Plant by the federal government. This plant is expected to be operational by 1998 and will treat raw sewage from Mexico. In the interim, until the international plant is constructed, the City in 1991, agreed to accept and treat 13 million gallons per day of Tijuana sewage in the Metropolitan Sewerage System. The amount of flow that the City can accept is limited due to the capacity of the emergency connection. Due to increased water availability and usage in Tijuana, raw sewage flows in the Tijuana River have increased. These flows are beyond the capacity that can be handled by the Mexican treatment system and the emergency connection. These increased flows threaten the health, safety and welfare of the citizens of San Diego. The continued declaration of emergency will enable the City to assist state and federal agencies in expediting the treatment of this international sewage. The

government code requires the local governing body to review a State of Emergency every fourteen days until the local emergency is declared to be terminated. The State of Emergency was first declared by City Council on September 7, 1993. This action requests the continuation of the State of Emergency and authorization for the City Manager to execute all necessary contracts for the diversion, treatment, and disposal of international raw sewage.

In August 1994, the City purchased a 70,000 square foot building at 9601 Ridgehaven Court as the administrative offices for the Environmental Services Department and Development Services Department Field Division (CIP-37-356.0, Waste Management Facility, \$5,150,000.) Funding for this project was originally programmed to be proceeds from the sale of bonds. The bonds have not been sold and alternative funding has been identified. The funding in CIP-37-250.0, Landfill Closure and Environmental Projects, CIP-37-055.4, West Miramar Solid Waste Disposal Facility-Phase 1, and CIP-37-257.0, Materials Recovery Facility-Debt Service, has been determined to be in excess of project needs and available for transfer to CIP-37-356.0, Waste Management Facility. The transfer of funds at this time will allow the purchase of \$115,000 in long-lead-time high-efficiency water-source heat pumps that will be City-supplied equipment in the contract for tenant and energy efficiency improvements to prepare the building for occupancy by September 1995. The award of the contract for the tenant improvements will be presented to Council for consideration by May 1995.

Authorizing the Auditor and Comptroller, upon advice from the administering department, to transfer excess budgeted funds, if any, to the appropriate reserves.

CITY MANAGER SUPPORTING INFORMATION:

The Power Generation and Distribution Upgrade Project at the Point Loma Wastewater Treatment Plant will provide for an analysis of the plant's power requirements and capacities and design the recommended improvements. Holmes and Narver was selected to perform design services for this project in conformance with Council Policy 300-07. Approval of an engineering agreement with Holmes and Narver is requested. The scheduled expansion of the Point Loma Wastewater Treatment Plant will result in power demands which exceed the capacity of the existing electrical generation systems. The existing gas utilization facility consists of two engines which burn primarily digester gas to drive generators for the plant's electrical needs. Expansion of the plant will increase power requirements to warrant a third generator. Additional power generation can also be obtained through repair and commissioning of the hydroelectric power plant. In addition, upgrades to the electrical distribution system will ensure reliable power in order to adhere to EPA requirements for normal and standby power. This contract is for design services only. Appropriate environmental documentation will be prepared and certified prior to the release of construction funds for this project.

ITEM-S400:

SUBJECT: Two actions related to the First Amendment to the Reimbursement Agreement for Hage Neighborhood Park. (Mira Mesa Community Area. District-5.) (Continued from the meeting of March 20, 1995, taken on March 21, 1995, Item 119, at Councilmember Warden's request, to allow time for written information from Park and Recreation regarding the cost for Hage Park.)

CITY MANAGER'S RECOMMENDATION:

Adopt the following resolutions:

Subitem-A: (R-95-1274) ADOPTED AS RESOLUTION R-285552

Authorizing an amendment to the reimbursement agreement of April 23, 1990, with Pardee Construction Company, for the design and construction of Hage Neighborhood Park;

Authorizing the reimbursement of an amount not to exceed \$1,000,000 from FBA Fund 79006, CIP-29-292.0.

Subitem-B: (R-95-1275) ADOPTED AS RESOLUTION R-285553

Stating for the record that the information contained in Environmental Negative Declaration DEP-87-0456, has been reviewed and considered by the Council for the City as Lead Agency in connection with Hage Neighborhood Park.

CITY MANAGER SUPPORTING INFORMATION:

The City Council, on April 23, 1990, approved a Reimbursement Agreement with Pardee Construction Company (Pardee) for design and construction of five acres of nine acre Hage Neighborhood Park (Project). The estimated cost was \$500,000, payable in FBA credits or cash. Pardee has completed the project and the actual total project cost is \$1,000,000 due to revisions which significantly increased the scope of work. The approved General Development Plan (GDP) for the entire nine acre site was redesigned three times at different phases of the project based on input from public hearings. The changes that were requested by planning agencies and public groups required revisions to the plans and specifications needed for construction of the project. The project construction plans were completely redrawn to provide a joint use parking lot with Hage Elementary School, requiring a reconfiguration of the park layout, and increasing the project area and work to be done. The project construction cost of \$650,000 alone exceeded the original total project estimate of \$500,000. The balance of \$350,000 was expended for professional

services and project administration costs.
